All Polled Hereford entries must be registered in the American Polled Hereford Association Record. All entries are subject to provisions and rules for showing as set forth by the Board of Directors of the American Polled Hereford Association, and are subject to supervision of the Show-Sale Committee representing the APHA.

Animals with scurs (any horny tissue) are not eligible to compete in APHA Standard of Perfection Shows. Any evidence of tampering or removal will disqualify from competition.

Cattle must be entered and exhibited under the recorded ownership at the time of the show's entry deadline date. Jointly owned animals must be entered and shown under the multi-ownership (all co-owners) in the individual classes. In the group classes, jointly-owned animals may be entered and exhibited under the name of one of the co-owners provided he owns a full-or-part-interest in each of the animals in the group entry.

### SHOW CLASSES

Final determination of classes for individual bulls and heifers will be made at the show, after all animals are checked in upon arrival. Polled Hereford entries will not be entered in designated show classes at time of entry.

There will be 9 classes for individual heifers and 11 classes for individual bulls, plus 3 group classes (Get-of-Sire, Calf Get-of-Sire, and Best Six Head).

Individual bull and heifer classes will be divided into as nearly equal numbers as possible, depending on natural age breaks of entries and the final number of animals to be exhibited.

Judges may reduce the numbers in class for final competition to correspond to the number of places premiums are offered, and the balance of animals in the class may be allowed to return to the stalls.

We know times are tough in the beef cattle business. But we haven't let this stop us from investing in the beef business. We are continually looking for and buying the best young performance bulls available for the industry.

At Select Sires, our goals are:

- \* to provide genetically superior bulls that will add pounds to your weaning and yearling weights and produce superior replacement females.
- \* to provide superior service and A.I. supplies to beef producers through our member organizations and distributors.
- \* to provide qualified personnel for consultation and herd mating.

While at the North American Livestock Exposition, stop by our booth and pick up our 1977 Beef Sire Directory.
